

FOR IMMEDIATE RELEASE:

RUBICON PROFESSIONAL SERVICES NAMES JAIME DUTRO VICE PRESIDENT OF CONSTRUCTION MANAGEMENT SERVICES

Award-Winning Design-Build Expert Brings 30 Years of Construction Management, LEED and MEP Expertise and General Contracting Experience to Rubicon Team

Herndon, V.A. – July 8, 2010 – [Rubicon Professional Services](#), a leading national provider of full-service [energy management](#), consulting, engineering, and construction management for mission-critical facilities, today announced that it has named Jaime Dutro as its new Vice President of Construction Services. Dutro will drive the development and standardization of Rubicon's processes and procedures, streamlining the efficiency of the company's construction management projects and day-to-day activities. He will also steer Rubicon's safety and training programs for the entire staff.

"We are pleased to bring Jaime Dutro on board as our new VP of Construction Services," said Jim Embley, Chief Executive Officer of Rubicon. "Jaime's experience and knowledge in all facets of construction management, from design and build to training and green engineering, aligns perfectly with Rubicon's mission and continued expansion."

Dutro brings to Rubicon over 30 years of design-build, construction management at-risk, and general contracting experience, providing strong and experienced management and direction across the full spectrum of operational project delivery. He has an extensive background not only in mission-critical data center, LEED, MEP and telecom projects, including the design and construction of eight Worldcom/MCI data center facilities, but also a wide variety of commercial and public projects. Dutro has designed and built stadiums, sports facilities such as the Braves Turner Stadium, retail buildings such as Nordstrom's, office buildings, higher education, and healthcare facilities. Dutro's work on the Atlanta Olympic Stadium project earned him a "Best Project Over \$10 Million" Award in 1996, and he is a member of the United States Green Building Council.

"I am proud to join the visionary team of construction management experts at Rubicon Professional Services," said Jaime Dutro, Rubicon's new Vice President of Construction Services. "This position allows me to draw from all aspects of my 30-year career in the industry, including project management, design-build, safety training and value engineering. I look forward to helping Rubicon continue its national growth while contributing to its next-generation approach to construction management."
